

Hammers

Hardox Hammers for longer service life

Steel grade

Hardox 450 / 500 / 550 / 600 depending on application

Thickness

Up to 100mm in massive hammers, greater thicknesses in sandwich constructions.

Used in

Fragmentation of refuse and minerals, especially in building debris and ferrous scrap, and for brittle garbage like glass, electronic scrap, unsorted waste, waste wood and limestone.

Hardox advantages

- Significantly higher toughness.
- Significantly greater toughness to chipping of material.
- Longer service life.
- Locally available on a short lead time.
